

# The Leading Experts

Pro Soil Distributors Projects is a leading expert in mining support services, trusted for our proven track record, technical excellence, and commitment to safety and sustainability. With over two decades of industry experience, we are the perfect partner for efficient, reliable, and forward-thinking solutions across the mining value chain.

Mining Projects

## Overview

Established in 1999, Pro Soil Distributors Projects was founded with the purpose of building a strong and sustainable presence in the male-dominated mining industry of the North West region. As a proudly Level 2 B-BBEE contributor, Pro Soil is committed to inclusive growth and transformation within the industry. The company's focus has always been on delivering meaningful contributions to mining activities through dedication, resilience, and a drive to create lasting impact within the sector. To meet the demands of this dynamic sector, we expanded our service offering through a regional network of skilled industry professionals and well-equipped facilities-delivering value and reliability at every stage.

## Our Mission and Vission

Our vast technical understanding of mining forms the basis of our company's activities and enables us to give qualified advice and service to our customers

### Mission

Our mission is to obtain and retain customers through exceptional services, improved customer relations, whilst not compromising quality and safety standards.

### Vision

Our vision is to create lasting stakeholder values through the discovery, development and conversion of strategic customer relations by providing innovative, market-focused solutions.

## Our Strategy

The growth and sustainability of the Company will rely on:

|                                                                                                                        |                                                                                                                          |                                                                                 |
|------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| A focus on reducing costs and increasing production of our existing projects and partnerships assets to full capacity. | Continuing exploration at our existing projects to expand resources and help place new mines into profitable production. | Position Pro Soil as a consolidation vehicle for South African Mining Industry. |
|------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|

# Jeanette Ngwane

AWARD WINNER 2005

Jeanette Ngwane, a trailblazer in the mining industry for over 26 years, leads Pro Soil Distributors Projects with vision and resilience. Her leadership has driven the company's growth and reputation in a highly competitive and technical sector. In recognition of her innovation and excellence, she was awarded the Technology for Women in Business National Award in 2005.

## Open Cast Mining

Pro Soil Distributors Projects offers end-to-end open cast mining solutions, delivering safe, efficient, and cost-effective operations tailored to client needs. Our services include site development, drilling and blasting, overburden removal, load and haul, and rehabilitation. With a focus on precision, environmental compliance, and production targets, we leverage skilled teams and advanced machinery to ensure optimal resource recovery and operational continuity.

# Crushing & Screening

Our crushing business is dedicated to providing world-class, tailored screening and processing plants for some of the world's largest and most profitable mining companies. We crush and process materials to client's specifications.

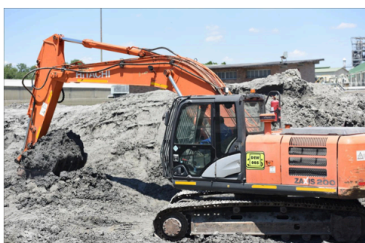

# Plant & Machinery Hire

We are one of the leading Equipment Rental Company since 1999. We provide you with all your plant hire requirements. All heavy and light equipment rentals.

The range of plant and machinery for hire by Pro Soil Includes:

- Skid Steer Loaders
- Telescopic Handlers
- Tipper Trucks
- Fork Lifts
- TLB's
- Industrial Sweepers
- Screening Plants
- Loaders
- ADT's
- Excavators
- Dozers
- Crusher Plants

# Industrial Cleaning

We bring extensive experience in the cleaning of mine plants and industrial sites, backed by a team of highly motivated and skilled personnel. Our cleaning operations are led by senior staff with in-depth knowledge of Health and Safety regulations, ensuring compliance and operational excellence.

Our Cleaning Division employs tailored, cost-effective, and efficient systems to meet diverse site and plant requirements. We utilise a wide range of specialised equipment, including vacuuming units, skid steers, and sweepers, to handle complex cleaning tasks with precision.

Additionally, we operate advanced equipment for water cutting and the removal of sludge, scale, and chemical residues from vessels, pipelines, storage tanks, towers, drums, wash pits, and leaded gasoline tanks-delivering safe and thorough industrial cleaning solutions.

- Cleaning of:
- Acid tanks
  - Sumps
  - Water Catchment Dams
  - Concentrator Plants
  - UG2 Plants
  - Launderers & Manholes
  - Conveyer Belts
  - Air Lines
